May 27, 2010

Ms. Sue Moseley:

I would like to submit comments about the SMA request to extend transportation credits to June, 2010. I received my market information bulletin on May 27th, 2010 and it was postmarked May 19th, 2010. This is my explanation for missing the May 26th date.

I am opposed to extending the transportation credits because they devalue local milk. I have read the request that SMA presented on May 12th to you. It explains that production continues to drop in the southeast. Could it be possible that such funding could be used to increase local production instead of transporting milk into the southeast from long distances?

**Thanks,
Lee Robey**
