## Request Seeks Changes in Pooling Provisions

The Market Administrator has received a request to change producer delivery day requirements and diversion limits for the Southeast Marketing Area (FO 7). A similar request has been submitted to the Market Administrator for the Appalachian Marketing Area.

The request seeks to increase the producer delivery day requirement to 10 days each month for January through June. Currently, the producer delivery requirements for FO 7 are 4 days for January through June and 10 days for July through December. The request also seeks to lower the diversion limits to 15 percent for December through February; to 20 percent for March through June; and to 10 percent for July through November. Currently, the diversion limits for FO 7 are 50 percent for January through June and 33 percent for July through December. A copy of the request is available at [www.fmmatlanta.com](http://www.fmmatlanta.com) by clicking on "What's New" or by calling 770-682-2501.

The Market Administrator invites written comments regarding the request to change producer pooling requirements and diversion limits. Comments should be mailed to: Market Administrator, PO Box 491778, Lawrenceville, GA 30049, emailed to [smosley@fmmatlanta.com](mailto:smosley@fmmatlanta.com) or faxed to 770-822-1038 by February 16, 2007.

## New Class III and IV Product Price Formulas

A copy of the interim order, which becomes effective on February 1, 2007, is available at [www.fmmatlanta.com](http://www.fmmatlanta.com) under 'What's New'.

Public comments and exceptions to this decision are due by January 22, 2007.

## Southeast Market Summary

The minimum order uniform price for payment to producers supplying the Southeast Order marketing area during December 2006 is \$14.81 per hundredweight for milk with a 3.5% butterfat test in Fulton County, Georgia. This is .965 times the uniform skim milk price of \$10.37 per hundredweight plus 3.5 times the uniform butterfat price of \$1.3722 per pound. Payment to producers may be reduced by location differentials, if applicable, and by properly authorized deductions.

Uniform prices are the result of marketwide pooling; all producer milk was classified and priced according to the milk's use. In December, Class I use, which is primarily bottled or packaged fluid milk, accounted for 66.59% of all producer skim milk (priced to handlers at \$7.89 per hundredweight, plus the Class I differential, see page 2) and 38.70% of producer butterfat (priced to handlers at \$1.3770 per pound plus Class I differential). Class II use, which is milk used in fluid cream products and miscellaneous manufacturing, accounted for 9.89% of all producer skim milk (\$8.09 per hundredweight) and 19.50% of producer butterfat (\$1.3551 per pound). Class III use, mostly milk used to produce cheese, accounted for 14.98% of all producer skim milk (\$9.07 per hundredweight) and 17.24% of producer butterfat (\$1.3481 per pound). Class IV use, generally milk processed into butter and powder, accounted for 8.54% of all producer skim milk (\$7.86 per hundredweight) and 24.56% of producer butterfat (\$1.3481 per pound).

Receipts of producer milk during December 2006 totaled 610.3 million pounds. There were 29 regulated pool distributing plants, 3 pool supply plants and 10 cooperative associations submitting reports of receipts and utilization that were included in the computation of the uniform prices for December 2006. Class I route disposition in the area totaled 428.2 million pounds in November 2006.
